

SAGE Newsletter

Spring 2021

Happy Spring!

Wherever you are, we hope you are enjoying this season of renewal! We continue to be impressed by our scholars' drive and resilience during the COVID-19 pandemic. In this newsletter, we highlight some of their experiences during their first semester of the 2020-2021 academic year.

A Look Back at the First Semester

Despite the complicated circumstances created by the pandemic, our scholars continued their hard work in their various degree programs at the University of Guyana. Due to a delayed opening, UG's first semester just wrapped up in March. Below, three of our scholars describe their favorites courses taken during the first term.

"Pediatric Medicine was my favorite course. The reason being is that the field is so vast and we often think of the pediatric population as "little adults" when, in fact, this is far from being so. I was able to get a deeper understanding as to how a future physician should approach this group and deliver the best care possible."

-Hilton, SAGE Scholar, Medicine

"This term my favorite course was Business Leadership. I have learned a lot about leadership and management. This course absolutely enhances my passion to become a good leader. I have always wanted to become a good role model in society and [make] a positive difference in the lives of those underprivileged. I will take away all that I could from this course and put it into practice, especially in my indigenous community."

-Sheldon, SAGE Scholar, Business

"Mathematics because it was so difficult for me I made more time for it and practiced as much as I can. I am not where I want to be, but having this challenge with this course makes me want to learn it and master it."

-Uvannie, SAGE Scholar, Computer Science

It's Application Season

Spread the word! The 2021 SAGE application is available on our website, and applications are rolling in! Click [here](#) to learn more about our application process.

SAGE began in 2009 and continues to support scholars every academic year. To date, **23 deserving students** have received full scholarships to the University of Guyana, with majors including law, medicine, international relations, education, computer technology, and tourism.

Scholars are selected based on their academic record and dedication to making a positive impact in Guyana. SAGE is the only fully funded scholarship program for students in Guyana who want to attend the University of Guyana.
